

Sinclair Broadcasting is planning to air right wing propaganda against Senator Kerry but will not be airing "Fahrenheit 911" or "Going Upriver". Either both sides should be aired the same night or none should be aired.

Sinclair uses the public airwaves free of charge, and has to stay within legal bounds. We are seeing more of what's good for the bottom line and less of what we need for our democracy in both the media and our government. How can we possibly be an example of Democracy for the entire world to see when we allow these violations to occur?

Clearly, action needs to be taken to strengthen media ownership rules, not weaken them. They show why the license renewal process needs to improve drastically. Thank you.
